

GRAND CONCEPT

NEW UNIQUE COLLECTIONS

Spectacular design, energy of shades,
non-standard style

GRAND CONCEPT

Introducing a new collection of large gres tiles, part of the GRAND CONCEPT series. The new tiles were designed specifically for bolder consumers, looking for solutions in the premium segment and appreciating the everlasting beauty of natural stone, the allure of concrete, and interior design that is anything but ordinary. The new concept is inspired by the beauty, strength, majestic appearance, energy and variety of stone, and well fits the concept in global trends appreciated at international exhibitions. The 13 new collections (with 11 polished versions and 2 matt versions) are available in three tile formats: 60 × 60, 80 × 80 and 60 × 120, suitable for commercial spaces that need to stand out from the ordinary and custom home projects. Unique and sophisticated designs, often featuring strong colour combinations, allow the use of gres tiles in interiors in diverse, and often non-standard styles. There is a tile style for everyone: everlasting classic lines, minimalist simplicity, industrial boldness, and sublime glamour.

VULCANIC DUST

In designing this collection we wanted to explore the possibility of domesticating an element. It turns out we could. Our designers, inspired by volcanic lava, have created this modern take on beige tiles with irregular rust-coloured veining, and the result is spectacular. The colours emphasise the natural warmth of the bathroom, while the dynamic pattern keeps the space it creates unique and interesting.

*The diversity of tile “faces” lends a natural look to the surface.
The collection has at least 6 unique faces.*

ESSENTIAL GREY

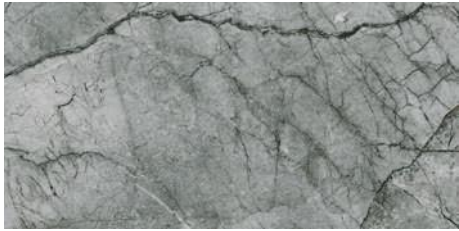

Like a little black dress, marble is timeless, never goes out of style and is perfect for any interior. The sophisticated grey and graphite elegance of this update on a classic tile shows the best that nature has to offer. This noble collection is a perfect choice for commercial interiors, wellness-style bathrooms or home relaxation rooms, where it brings a sense harmony and effortless serenity.

DESERT WIND

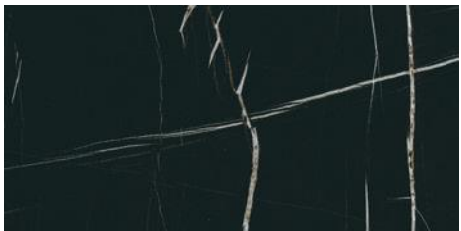

The inspiration for this unique tile collection came from deserts, where the rocks have to withstand strong winds at night and razor-sharp sunlight during the day. The combination of a deep black background with contrasting, geometric white and copper veining is dedicated to anyone who enjoys an interior with the most outstanding aesthetics available in modern design trends.

*The diversity of tile “faces” lends a natural look to the surface.

BRAVE ONYX

A real standout among our latest collections! If you are looking to create a modern and glamorous bathroom, this collection must be considered! The beautifully polished, reflective surfaces of these lightly-textured tiles conceal a pattern reminiscent of pearls concealed in the depths of the vast ocean. This combination of elegance and modernity is naturally intriguing, the perfect choice for both private and commercial interiors, memorable for everyone.

*The diversity of tile “faces” lends a natural look to the surface.

MARBLE SKIN

The popularity of some materials never seems to wane, even with the passage of time, and one of these is marble. The marble-inspired tiles from this collection introduce a discreet breath of effortless elegance, highlighted in deep greys and a raw, matt finish. All this emphasised with black veining and a glossy ink finish. In short – a classic that is perfect as a base for a whole world of design ideas.

*The diversity of tile “faces” lends a natural look to the surface.

NIGHT SHADE

Imagine being away from the urban environment, watching the night sky, with the bright moonlight casting its curious shadows. The latter were our inspiration to create this unique collection, where normally matt concrete becomes a polished, glossy surface, with the streaks in the corners lending the tiles a mysterious aura. If your dream is an austere interior with a subliminal character, then without a shadow of a doubt this is your collection of choice!

*The diversity of tile “faces” lends a natural look to the surface.

IRONIC

Are you fascinated by the Industrial Revolution? Ironic is a collection to recall the feel of a metropolis from that era. The pattern depicts lightly weathered metal, combining both varied textures and polished surfaces, offering a unique sense of depth that is ideal for a modern loft. These tiles are sure to satisfy even your most sophisticated of tastes, rejecting clichéd and banal solutions.

*The diversity of tile “faces” lends a natural look to the surface.
