LAMELLAR TILES

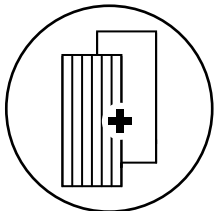

in 30 × 60, 30 × 90 and 40 × 120 formats

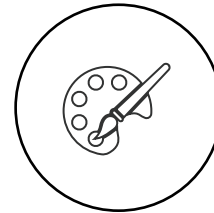

**STRUCTURED TILES THAT CREATE
A SPATIAL EFFECT IN YOUR INTERIOR**

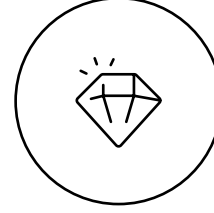

**TWO LAYOUT OPTIONS
– VERTICALLY AND HORIZONTALLY
– VARIED DESIGN EFFECT**

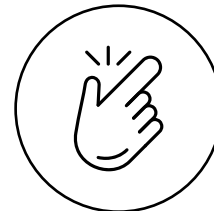

**THEY BLEND EFFECTIVELY WITH ALL TILES –
THEY ARE VERSATILE AND MATCH MOST DESIGNS**

**DIVERSIFIED LAMELLA COLORS
– FROM POPULAR WOOD TONES THROUGH
SHADES OF WHITE TO GRAPHITE**

**DURABILITY AND HIGH RESISTANCE OF TILES
TO MECHANICAL DAMAGE OR MOISTURE**

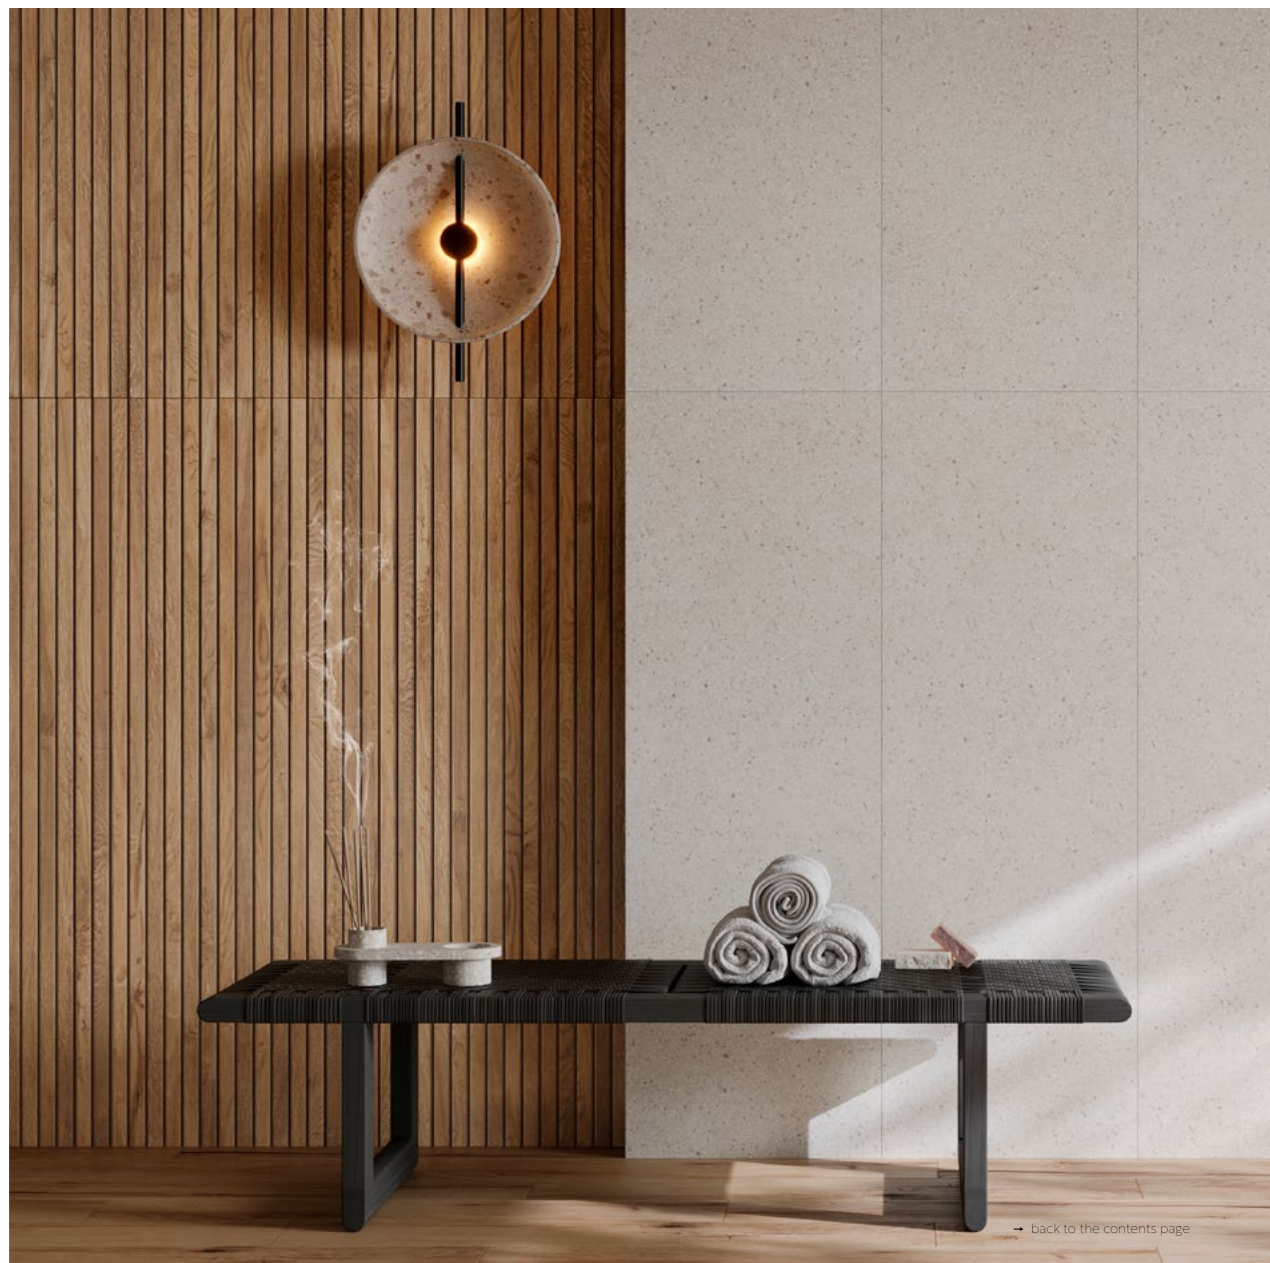

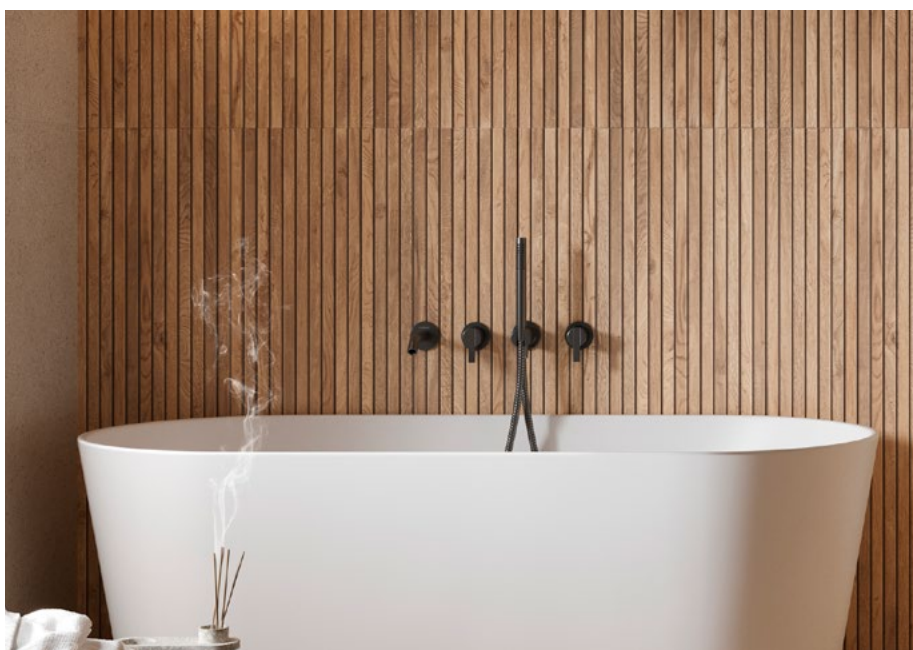

**MODERN AND VERSATILE TILE DESIGN IS THE
WAY TO GO FOR WELL-DESIGNED INTERIORS!**

Lamellar tiles are **currently the hottest trend in space design**. Their unique texture and variety of natural shades make them an extremely attractive element of modern interiors. **They blend well** with all tiles – they are versatile and match most designs. They fit perfectly into a variety of interiors – modern, minimalist and more classic. Discover how to use the charm and functionality of the lamellas to create your dream bathroom that reflects your individual style.

ALMERA WOOD

39.8 × 119.8

The ALMERA WOOD collection will create a sense of tranquility and balance in the interior with a color scheme based on warm wood tones. Tiles, with a wood-like texture, are key elements for warm, modern interiors. Such a background will look interesting with cubist washbasins, round mirrors and black fittings. Floor made of wood-like gres in a light shade will complete the design of a spa-like bathroom. The whole forms the basis for warm modern interiors.

LAMIA WOOD

29 × 89

The LAMIA WOOD collection invites you to create a cozy, nature-inspired space. It features tiles based on the natural texture and warm shade of wood. The graphics reflect the dense and varied woodgrain and its delicate shadows and reflections. The 3d texture of the tile with clearly defined darker grout lines emphasizes the linearity of the wood graphic.

The LAMIA WOOD tiles can be matched with a number of other collections to create a unique vision of a modern interior. Wood-like patterns will charmingly complement monochromatic arrangements, contrast with subdued tiles in a cement shade or imitating natural stone. As a decorative element, installed on the entire wall or selected area – under the shower or above the sink – they bring a touch of nature, harmony and tranquility to your home.

TELLARO WOOD

29 × 89

The TELLARO WOOD collection showcases the beauty of natural wood. It captivates with its warm, pleasing color palette and exudes tranquility. The wood-like tiles with lamellar structure made of ceramics have been designed to mimic nature – adorned with fine and irregular woodgrain patterns.

The TELLARO WOOD collection charmingly blends with tiles inspired by natural materials. When combined with tiles in a cement color or those imitating stone, it creates a subtle contrast that, reminiscent of nature, recreates a relaxing, pleasant atmosphere of a home spa in the interior. Tiles can be installed in wet areas in the bathroom, for example, to create a distinctive wall with a pronounced texture.

BOSTON WOOD

29.8 × 59.8

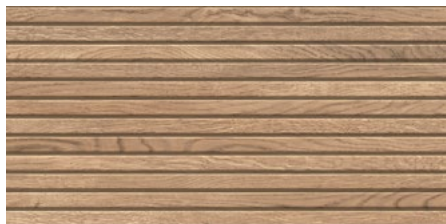

The BOSTON WOOD collection is a good choice for those who want to bring a warm, natural feel to their interiors. The unique lamellar structure of the tiles gives the rooms a warm and atmospheric look, reminiscent of the natural texture of wood. The collection makes it possible to create interiors with a distinct character that exude elegance and coziness.

These tiles blend nicely with modern furniture and japandi-style accessories to create a harmonious and pleasant living space. They can be installed on the entire wall or just a section of it.

SOLIVI

39.8 × 119.8

SOLIVI is a tile collection, in which parallel, thin stripes add a dynamic and original character to the composition. Despite its simplicity and delicacy, this collection allows for the creation of interesting arrangements that exude tranquility, elegance, and naturalness. Black fittings and decorative elements in more distinctive shades are perfect additions to the composition.

TOSSA

39.8 × 119.8

TOSSA is a structured wall tile with a pattern of wide, convex stripes. The delicate and subtle lamellar structure in beige shade is a striking match for monochromatic interiors. The matte finishes further enhance the stone-like character of the tiles. The collection will not only work as a central design point in the bathroom or living room, but will also provide a great base for interior experiments, especially since the tiles blend with wood, stone and glass, as well as with colorful elements.

AURANO

29 × 89

AURANO is a collection created based on the Aursina Fiorita stone from Italy. The beige surface of the tile shows a fine-grained pattern in a light shade.

Aurano lamellar tiles will transform a monochromatic bathroom, for example, into a modern spa in a calming japandi style.

ALMERA COLOR WHITE

39.8 × 119.8

ALMERA COLOR WHITE is a white, wall tile with a structure of thin strips, which will enrich any space and add character and dynamics to the interior. The delicate, pleasant to the touch, satin finish emphasizes the subtle elegance of the tiles and adds charm to them. Combined with the ALMERA COLOR WHITE structured lamellar tile, the matte wall tile in a universal beige shade looks perfect.

This set will work in various interiors and design styles, and the charm of the composition will be emphasized by adding elements of wood, cement, or stone.

ALMERA COLOR GRAPHITE

39.8 × 119.8

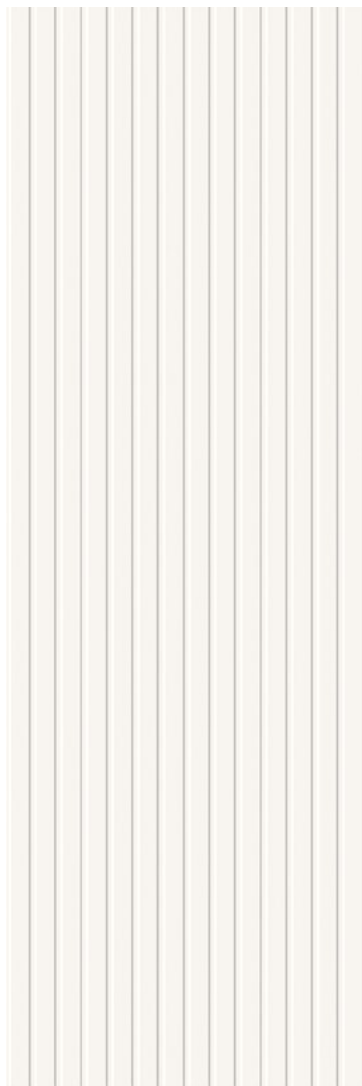

ALMERA COLOR GRAPHITE is a graphite, monochromatic tile with a lamellar structure and a satin finish. Positioned vertically on the wall, it brings raw elegance to the room, appreciated not only by men.

This collection allows you to create an interior with character that is both stylish and sophisticated. The arrangements can be successfully complemented with glass and universal accessories, as well as wooden and stone elements.

LAMIA COLOR

29 × 89

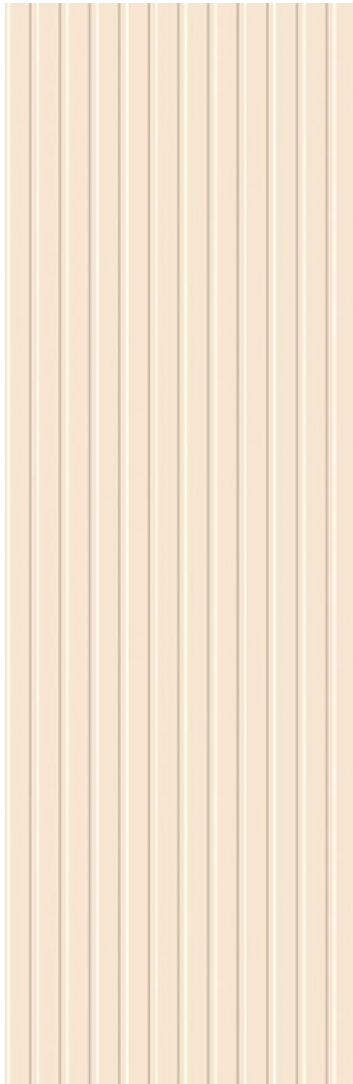

THE LAMIA COLOR collection inspires the creation of harmonious spaces full of three-dimensional and clean lines. It provides a sense of depth and endless possibilities for interior design. The spatial, tactile texture composed of simple patterns will enliven any room. The tiles are available in three universal shades - white, cappuccino, and graphite.

The LAMIA COLOR tiles can be freely combined with other collections. Used as a decorative accent, they will subtly stand out against the background of plain tiles from other series, and when color-matched to the currently fashionable monochromatic interiors, they will add character to them. The LAMIA COLOR structured tiles will also find their place in modern, industrial, or minimalist spaces designed in concrete, stone, or wood.
