## TIMELESS BEAUTY

STONE • MARBLE • CONCRETE  
WOOD • COLOR AND MOTIF

The Wood Concept is a blend of modern design with the natural beauty of wood. These wood-like tiles are created for those who desire the warmth and coziness of wood without the need for regular maintenance.

The collection has been enriched with new patterns – Wood Creation and Space Wood. Additionally, we have expanded the Passion Oak collection with 2 new types of planks.

Tiles from the Wood Concept collection not only faithfully replicate the wood pattern but also boast durability and easy maintenance. Every detail, every texture, perfectly mimics natural wood, giving interiors a unique, natural character.

## WOOD CREATION

Wood Creation is a collection of wood-like stoneware tiles in classic warm beige and brown shades. It will bring harmony and a cozy atmosphere to any interior. The tile surface reflects the natural beauty of wood – with a subtle, uniform grain, and a soft, discreet texture gently felt under the fingers, creating a warm impression. The tile graphics are balanced and subtle, adorned with few elements such as knots and cracks that gently meander across the surface without disturbing it. The delicate structure and matte finish complement the classic and natural appearance of the stoneware.

## PASSION OAK

The collection of wood-like tiles, Passion Oak Cream, in a warm, light cream and brown hue perfectly replicates the strength and character of oak. The contrasting graphics on the stoneware surface depict a distinctive grain, numerous strongly emphasized knots, and naturally occurring cracks in oak wood, bringing a touch of nature and timeless elegance to any space. The pronounced, three-dimensional structure of the stoneware, complemented by a matte finish, gives the collection the perception of being very close to a real wooden floor.
