a recipe for the perfect
combination of tile patterns
and colors

TIMELESS BEAUTY

STONE ■ MARBLE ■ CONCRETE
WOOD ■ COLOUR AND MOTIF

The innovative Perfect Match tile concept includes five unique collections with diverse patterns, yet they complement each other well. This solution not only provides five different options but also offers dozens of possibilities for combining them in a single space.

With the Perfect Match collections, you can define and enrich surfaces, making the space well-designed in a straightforward manner

white match

As part of the Perfect Match concept, we present tiles in shades of white for enthusiasts of elegance and minimalist design. These tiles, a part of our exclusive line, perfectly complement each other, creating a harmonious whole.

Each collection in white shades has its unique character. From subtle terrazzo patterns to pure, monochromatic concrete, each tile is carefully designed to meet the expectations of our customers.

Propose Perfect Match tiles in shades of white to your clients.

warm beige match

The Beige shade, inspiring with its delicacy and subtle warmth, introduces lightness and harmony to the interior. Beige is associated with natural beauty, creating a tranquil atmosphere. The warm beige tone is for those who want to create an environment with a light and pleasant character.

By combining different patterns and shades of beige, such as gentle concrete, subtle TERRAZZO, or stronger accents, you can achieve a cohesive interior with a light character. Each element introduces a unique accent, creating a harmonious whole.

grey match

Collections in the grey shade bring deep elegance and modern style to the interior. Grey emanates raw charm, creating an atmosphere of tranquility and refined simplicity. Despite its darker nature, this color maintains subtlety, making it an ideal choice for those desiring modern and captivating interiors.

By combining various tile patterns in the grey shade, you can achieve a cohesive arrangement that beautifully highlights the deep elegance of this color. Grey pairs perfectly with modern furniture, creating interiors that are both fashionable and functional.

It is an excellent choice for those who prefer interiors with a stronger character.

mocca

match

The collection in the mocca color, a rich shade of brown, adds depth and elegance to any interior. This is an exceptional choice for those who wish to create a space with a subtle yet refined character. The tiles from the mocha collection harmonize perfectly with various arrangements, providing them with a modern and exclusive look.

This tile line offers an extremely subtle finish, thanks to its delicate texture and minimalist design. Mocha pairs well with tiles from the terrazzo line with small pebbles in a lighter shade.

CONCRETE

STRONG CONCRETE

is a collection inspired by concrete in an interesting and unconventional presentation. In this collection, a distinct graphic resembling winter frost on a window is paired with warm beige tones in shades of warm and mocca or cooler grays in shades of white and grey. The smooth surface and matte structure of the tiles emphasize the rawness and allure of traditional concrete, providing spaces with minimalist elegance and a modern character.

These tiles blend seamlessly with various materials, serving as both a focal point in the arrangement and a subtle background. By combining the collection with white, beige, and natural wooden elements, you can achieve a calm and harmonious interior. This composition works well in small bathrooms, spacious bathrooms, tasteful living rooms, hallways, and even on a terrace.

STONE

SMOOTH ROCKSTONE

is a collection that, at first glance, draws inspiration from concrete but, in reality, features an exceptionally delicate stone that reveals its subtle and natural beauty up close. The graphics are filled with small pebbles and gentle textures, adding charm and strength reminiscent of natural stone. The matte surface of the tiles captivates with its discreet elegance, creating an image of minimalist perfection in the space where every detail plays a unique role.

These tiles are well-suited for all minimalist decorative compositions, where simple and seemingly unassuming elements come together perfectly, showcasing their strength. The collection also serves as an excellent foundation for arrangements, allowing for the highlighting of more pronounced accents, such as a wall fragment made of Small Terrazzo tiles.

STONE

TERRAZZO STONE

is a collection that emphasizes the timeless beauty and strength of nature. Inspired by stone-in-stone formations, where various sizes and shades of gray stone are mixed and fused together. This is vividly reflected in the detailed graphics on the tile surface. The smooth and matte finish enhances the stony character of the tiles, adding a touch of naturalness.

This collection is ideal as a decorative element, especially when paired with graphics of concrete, wood, or subtle stones. Incorporating a wall segment made of these tiles in a living room or bathroom can break the monotony of the space and introduce a distinctive character. However, these tiles also shine in larger areas, such as flooring in a home or on a terrace, and their usage depends solely on the decorative concept in mind.

STONE

SMALL TERRAZZO STONE

is a collection of tiles with subtle graphics inspired by the natural sand on exotic beaches like the Seychelles or the Maldives. Its delicate patterns resemble sand grains, creating a pleasant atmosphere of relaxation and tranquility in the space. This collection is well-suited for large surfaces, maintaining its lightness and natural appeal. The matte surface of the tiles exudes subtle elegance, showcasing refined minimalism that complements simple and subdued interiors, such as those inspired by Japandi or decorated in Scandinavian style. It is an excellent choice for those seeking harmony and peace in their interior while maintaining aesthetics and functionality. These tiles look fantastic against a white backdrop and can be successfully complemented with wooden elements

CONCRETE **ARES**

The Ares Collection taps into trends, utilizing timeless, neutral earth tones. The collection introduces four striking shades: white, warm beige, mocha, and brown. An eight-color palette tailored to commercial spaces allows for versatile applications. A subtle concrete pattern on tiles with a matte finish achieves an elegant and subdued effect in interiors. Simultaneously boasting high aesthetic value and a pleasant, easy-to-clean surface, it stands out with exceptionally high slip resistance, frost resistance, and high wear resistance. It's a natural choice for places where safety and functionality matter.
