

GIGANT 44,4 x 89/59,3 x 59,3/29 x 59,3
Stone-inspired collection

GIGANT SILVER GREY

Stone-inspired tiles enjoy unflagging interest among interior finishing materials.

The gres-tile designs from the Gigant collection are based around rough stone and calm colours. The tiles are available in three rectified formats, with 4 colour options. Thanks to the rectification process, the number and the size of the joints between the tiles can be minimised.

The joint widths can be as small as 2 mm, an invaluable aid in creating beautiful and uniform surfaces. An additional advantage of this tile collection is the highly effective non-slip surface.

This is an excellent choice for anyone who enjoys minimalist, modern as well as industrial designs.

GIGANT ANTRACYT

GIGANT MUD 2.0

GIGANT 2.0 gres tiles feature an increased thickness of up to 2 cm, and can make the perfect choice when planning different spaces around the house, such as terraces, walkways, and areas within the garden, as well as for public facilities such as offices, hotels, restaurants, etc. They are also ideally suited for recreational areas, including parks, swimming pools and beaches. The tile design was inspired by natural stone and, as such, they can easily blend into any type of landscape and create a wonderful and harmonious composition.

GIGANT MUD 2.0

GIGANT 2.0

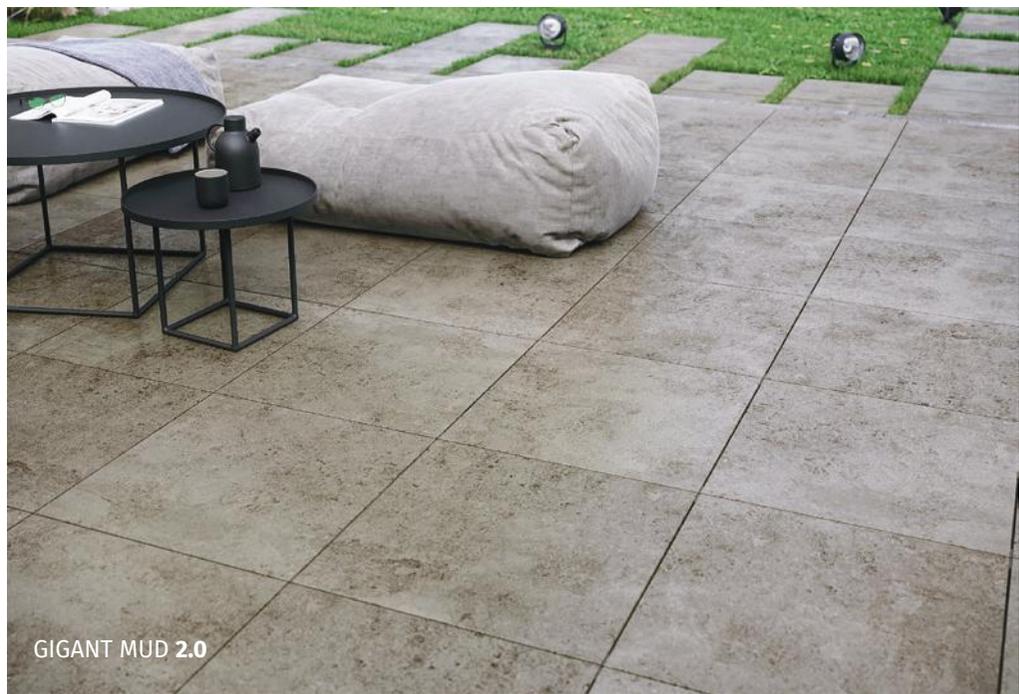

GIGANT 2.0 gres tiles are unique, partly due to their amazing aesthetic values, but also to their excellent technical and functional parameters.

Installing gres tiles is extremely easy. They can be used in practically any type of area and under any conditions, while their unique properties ensure long-term use.

GIGANT 0,8 cm

The GIGANT collection is available in the format of 59.3 x 59.3 in two thicknesses (0.8 cm and 2 cm). Thanks to this, we can create floors sharing the same kind of patterns both inside and out. This means that the living room tiles (installed using adhesive) can share the same looks as those on the terrace (installed using brackets), in order to form an elegant and uniform whole.

GIGANT MUD 2.0

INSTALLATION DIRECTLY ON THE GROUND

- On grass
- On gravel
- On sand

INSTALLATION ON SUPPORTS

- Modular stands.
- Adjustable supports
- Self-levelling supports

TRADITIONAL INSTALLATION

- Concrete substrate, using adhesive mortar and grouting the surface
