

GRAND CONCEPT

GRAND CONCEPT

Wood, stone, concrete and earth tones have dominated the majority of projects from the top designers. These natural materials have become symbols of modernity, used by those in step with the latest trends and knowing what is ,in' when it comes to interior design.

Tiles reminiscent of natural patterns are both a beautiful and durable material, making it possible to create visually-stunning designs in any type of space – and not just on floors, but also the walls of kitchens and bedrooms, fireplaces and even kitchen island fronts.

Grand Concept comprises four collections that perfectly mimic the beauty of noble stone (Grand Stone), raw concrete (Grand Concrete), warm wood (Grand Wood) and calm earth tones (Grand Colours). Each collection offers tiles in various sizes, which you can combine to achieve various decorative effects.

GRAND STONE

Majestic stone in striking formats

GRAND STONE CLASSIC

Marble continues to be a king among stones, standing for luxury and elegance. As multi-format milled rock tiles, it is perfect to highlight a piece of décor. With its characteristic veining, you can use it on kitchen worktops, walls and surfaces beside fireplaces, and even in the bathing areas of elegant bathrooms. Its multitude of shades and patterns offers opportunities to experiment and create unique arrangements even in a small space.

GRAND STONE *Stone is a refined and elegant finishing material which will give a unique character to every space. Its diversity allows you to adjust it to your individual needs, and its beauty never fades.*

GRAND CONCRETE
Elegant concrete

GRAND CONCRETE

Concrete is a material used for ages in architecture; it is integrated into the public space: it paves walkways and stairs; it is used in everyday objects. However, owing to its design flexibility and arrangement possibilities, it has become part of interior design; it has become fashionable, and is a favourite material used by architects and designers. Now, it is one of the most frequently used motifs in modern interiors.

GRAND COLOURS

Simplicity of a uniform floor in earth colours

GRAND COLOURS

Grand Colours series collections stand for the beauty of uniform floors which become the basis for intense decorations in order to create exceptional spaces, highlighting decorative elements, yet not disturbing the spaces. For lovers of simplicity and minimalism.

GRAND COLOURS

OPTIMUM / 63

OPTIMUM CREAM

OPTIMUM LIGHT GREY

OPTIMUM GREY

OPTIMUM GRAPHITE

Optimum milled rock tiles are coloured throughout, so their colour is equally intense into the tile. The effects of passing time on a floor made up of such tiles are almost invisible. You can use them in heavy traffic buildings.

OPTIMUM CREAM

OPTIMUM CREAM

OPTIMUM *The Optimum collection in the Grand Colours series will be perfect in offices and public spaces, becoming the background for an unusual interior décor and finishing the space. They will not only become a perfect base for floors, but they can also be used on walls or stairs: they include pieces with various formats, treads and skirting boards.*

A monochromatic effect can also be used in private spaces giving them a modern touch. Laid on larger areas, they will give character to the space.

In shades from warm cream to various tones of grey, Optimum will be an excellent addition to modern and minimalist spaces.
